# Daniel Stafford

Data Science Student at Aalto University  
Helsinki Area, Finland

## Summary

An outgoing and enthusiastic Javascript developer with a passion for learning. Check out my GitHub at <https://github.com/daniel-stafford/>

As a first-year Data Science student at Aalto University, I've enjoyed learning the paradigms of object orientated and functional programming. While I have been focusing on Scala at Aalto, in my own time I have been learning front-end Javascript, primarily using the library React.

After working as an international affairs analyst - as well as a brief stint as a registered nurse in Helsinki - I've developed strong public speaking skills, cultural adaptability, and the ability to rapidly learn on the job.

If you're looking for a part-time (academic year) or full-time (summer) developer who loves challenges and excels at collaboration, get in touch! Puhun suomea!

---

## Experience

Helsingin ja Uudenmaan sairaanhoitopiiri - Hospital District of Helsinki and Uusimaa (HUS)

Registered Nurse

2017 - 2017 (1 year)

Helsinki Area, Finland

Developed working level proficiency in spoken and written Finnish.

Worked in the emergency surgical and oncology wards at Meilahti University Hospital.

ABSc (Absolute Business Solutions Corp.)

Deployed Document and Media Exploitation Reports Officer

2012 - 2014 (3 years)

Doha, Qatar

Produced intelligence information reports for the Defense Intelligence Agency's Combined Media Processing Center in Qatar and Afghanistan.

Worked closely with Arabic, Pashto, and Dari linguists to facilitate the appropriate level of detail and nuance for a given customer.

Responsible for creating templates, finalizing fixed language, and documenting other guidance for the report writing team.

## CEDEI - Centro de Estudios Interamericanos

English Teacher

2010 - 2012 (3 years)

Cuenca, Ecuador

Volunteered and worked as an English teacher in sites throughout Guatemala and Ecuador.

## Booz Allen Hamilton

Senior Consultant | Cyberthreat Analyst

2009 - 2010 (2 years)

Washington D.C. Metro Area

Conducted all-source analysis with a focus in computer network operations threat analysis on the highly visible Pacific Command account, providing subject matter expertise and language proficiency on foreign threats, to include their doctrine, policies, strategies, order of battle, and capabilities to conduct cyberspace operations.

## The Stimson Center

East Asia Research Assistant

2008 - 2009 (2 years)

Washington D.C. Metro Area

Created timelines and analysis based on primary sources in both Chinese and English on cross-strait relations for senior fellows in the East Asia department.
